# 101R Rotary Enclosures

The **Rotary Mail Center** provides a unique, patented solution for quick set-up of centralized mail systems where space is limited or conventional wall mount installations may be prohibited. The inner cabinet unlocks, rotates 180° to allow employee servicing, and rotates back to the locked position for customer access. For a low cost alternative check out our Roll-arounds on page 13.

# 101C Modular Enclosures

101C

**101C Modular Enclosures are a rear loading, low cost alternative to meet your centralized mail delivery needs.** The 101C Freestanding Modular Enclosures are a durable and secure system that can provide mailboxes, parcel lockers, mail and parcel drops, as well as stamp machines and currency changers in both indoor and outdoor environments. Various configurations and model options offer the flexibility required to outfit almost any centralized mailing application. Versatility, high security, and extremely low maintenance requirements are just a few of the features of these mini postal stations.

## STANDARD FEATURES

- Constructed of 16 GA Vinyl Clad Steel
- High Security
- Accepts a Multitude of Postal Equipment
- Easy Installation
- Indoor and Outdoor Applications
- Low Maintenance
- Double Deadbolt Keyed Alike

## OPTIONS

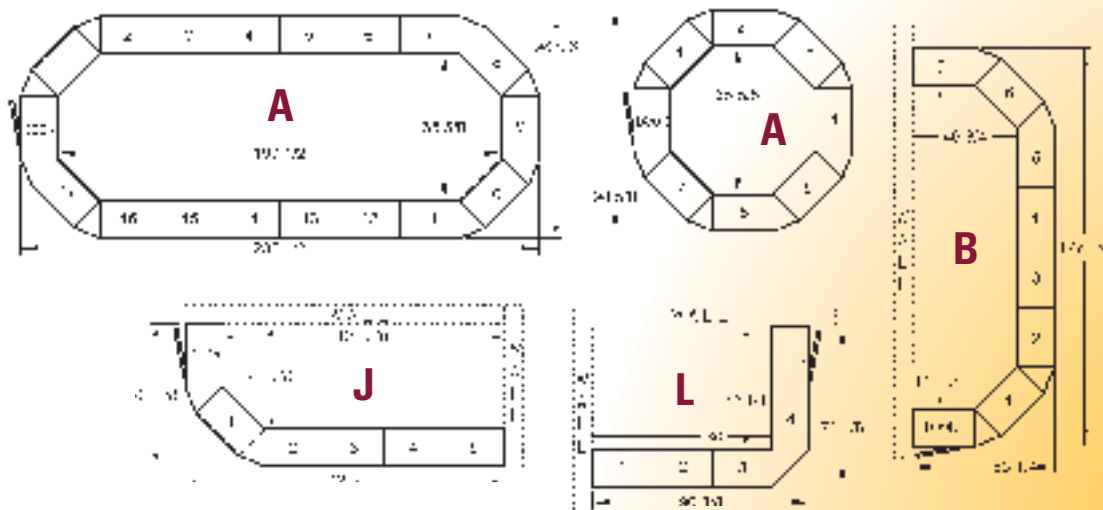

- 24" or 36" Door Unit
- Custom Configurations
- Storage in Rear of Unit

## HOW IT WORKS

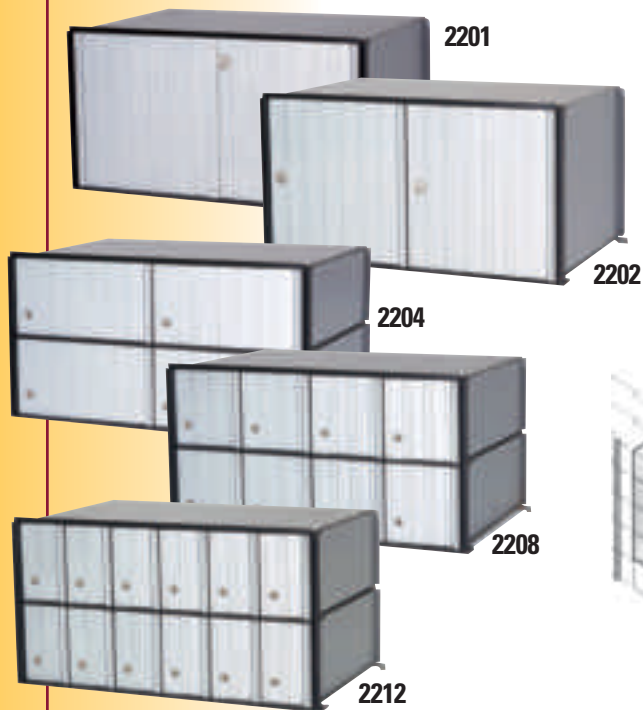

101C Units are bolted together to create a wall. (The number of units used in the wall depends on the number of openings desired.) This wall can then be shaped in any configuration to fit the allotted space for the enclosures. The enclosure can be a stand alone station (see "A" models), or can be used in conjunction with an existing wall (see "B", "J" and "L" models). This creates a locked room that the postal carrier enters to distribute the mail. Lights and a security screen roof are included for extra security.

## CONFIGURATIONS

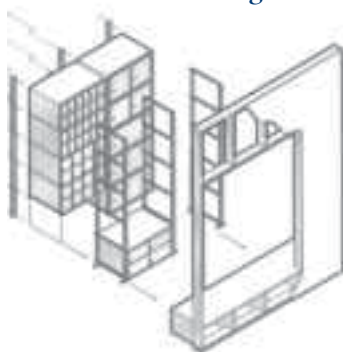

# Mailbox Modules

## 2200 SERIES MAILBOX

The classic mailboxes, these units are manufactured with extruded aluminum doors in 5 different sizes and are designed to fit into the Rack Ladder System, Rotary Mail Centers or the 101C Modular Enclosures.

The Rack Ladder System is a rear loading modular system used most commonly by the US Postal Service. The rack ladders support five mailbox or parcel locker modules to form a column. One column requires 2 rack ladders and each additional column in the same bank requires one additional rack ladder. With a variety of unit types and sizes to choose from, the rack ladder system allows mixing and matching of units according to delivery needs.

### STANDARD FEATURES

- Aluminum Doors
- 5-pin Cylinder Cam Lock
- OD: 23 1/4"W x 11 3/4"H x 15 1/2"D

### OPTIONS

- Combination Locks
- Windows

DD2

### STANDARD FEATURES

- Aluminum doors
- 3/4" slot in each door.
- OD: 23 1/4"W x 12-1/8"H x 15 1/2"D
- Optional Combo Locks

## DATA DISTRIBUTION

Similar to the 2200 Series, these data distribution boxes are ideal for distribution of interoffice mail. They are designed to fit into the Rack Ladder System, Rotary Mail Centers or 101C Modular Enclosures.

DD4

DD6

### STANDARD FEATURES

- Constructed of 20 Gauge Steel
- Extruded Aluminum Doors
- Powder Coated Silver Finish
- Five-Pin Cylinder Cam Lock
- OD: 23-1/2"W x 30"H x 15-1/2"D

### OPTIONS

- Locking Rear Covers
- Various Door Configurations Available

SS10

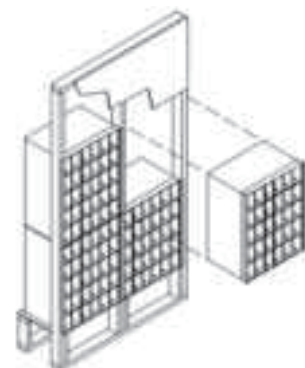

SS20

SS30

## STANDARD SYSTEM

Standard System Horizontal Boxes are rear loading and designed to stack two high and mount adjacent to each other or between wall studs, 101R or 101C.

# Parcel Lockers

## INDOOR

A perfect compliment to the 2200 series boxes, these USPS approved parcel lockers offer a convenient way to deliver parcels. When a parcel is delivered, the parcel locker key is placed in the recipient's mailbox. Once the parcel locker is opened, the key is automatically retained in the locker until it is released with the master or control key.

### STANDARD FEATURES

- 16 Gauge Powder Coated Steel
- Dual Trap-Key Locking System
- Raised Floor Eliminates Pry Points
- 24" Wide and 15" High

### OPTIONS

- Closed Back/Open Back
- Individual Rear Doors
- Private Sector Master Lock
- Rear Security Door
- 1/2" Stainless Steel # Plates

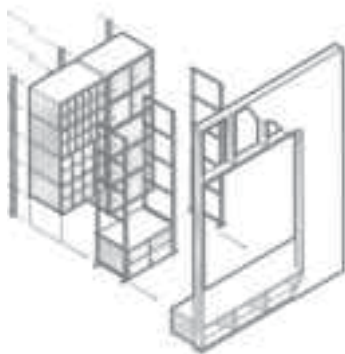

## SECURITY DOOR

Double Rear Door for Parcel Lockers, stacked in screenline.

### STANDARD FEATURES

- 3 Point Locking System
- Fits into USPS Rack Ladder
- 24" or 15" Door Available

PLDRD

## SPACE SAVER

The space saver PL15/5 provides a freestanding solution for 15" parcel lockers.

### STANDARD FEATURES

- Holds Five (5) 15" Parcel Lockers
- Fully Encased in 16 Gauge Vinyl Coated Steel

PL15/5

# Retail Lobby Furniture

Our **Retail Lobby Furniture** is designed for mixing and matching to accommodate your lobby needs. Perfect for lobby updates, renovations or expansions, each piece can be used individually to add working surfaces, or combined with any or all of the other pieces to create a complete retail lobby system.

RF-03

The **Weight Rate Table** is designed to hold a weight scale so that it sits flush with the counter top.

## STANDARD FEATURES

- Dual Oversized Lockable Storage Compartments
- Knockout for Scale Electrical Cord
- *Dimensions: 42"W x 28"D x 43"H*

## STANDARD FEATURES

- Units Can be Used Separately or as a System
- Back Splash or Flat Rounded Edges
- Aluminum End Caps
- Private or Postal Locks

RF-02

The **Writing Table with Storage and Waste** is multi-functional and may be used where space may be limited.

## STANDARD FEATURES

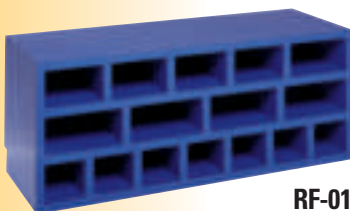

- Oversized Lockable Storage Compartment
- Lockable Waste Storage
- Swinging Waste Door
- *Dimensions: 42"W x 28"D x 43"H*

RF-04

The **Freestanding Handicap Table** offers a lowered writing surface.

- *Dimensions: 42"W x 27"D x 43"H*

RF-01

The **Forms Holder** provides multiple cubby holes for storage and easy customer access to common forms. Dividers are removable.

- *Dimensions: 30"W x 10 3/4"D x 12"H*

# Lobby Tables

HSS Lobby Tables are a convenient solution for installing parcel lockers where wall space may be limited. The 48" version will hold 6 lockers and the 72" table holds 9 lockers.

## STANDARD FEATURES

- 72" Table holds 9 Lockers
- 48" Table holds 6 Lockers
- Postal Retail Colors
- Back Splash or Radial Edges
- Solid Back Panels

LPL-48

LPL-72

PL3

Three sizes of parcel lockers are available for use in the lobby tables. Manufactured with a dual trap key system, they can be arranged in any order or sequence. For more information on parcel lockers, see page 5.

# dVault™ Collection Boxes

**dVault™ Private Delivery Boxes** provide intelligent, secure delivery of packages and mail for the age of the Internet. With the dVault™ Collection Vaults, the carrier can deliver a package without signature, and the package remains secure and protected from elements and tampering until the owner can retrieve the delivery. The dVault™ information system software provides electronic or email notification of package delivery. Combined, the dVault™ product line offers a unique solution for homeowners, commercial buildings and governmental agencies seeking a smart parcel bin.

## STANDARD FEATURES

*W/O Letterbox: 19"W x 40"H x 19"D*

The **dVault™ Information Systems (DIS)** provide automatic date and time-stamp delivery notification, electronic signature/release, tracking and numerous reporting functions. Our patented systems provide merchants, shippers and consumers with the information they want and need utilizing capital equipment and information infrastructures already in place.

### How it works:

Each unit (optional) may have a dVault™ ID Plate attached (see below). This ID Plate is unique to each unit and its location. When a delivery is made, the delivery agent scans the deliverable item, then scans the ID Plate and deposits the deliverable item into the delivery vault. dVault's software does the rest. The owner can register their unit for a nominal one-time fee to take advantage of the dVault™ Information System.

# Secure Collection and Storage Boxes

## LOST ITEMS BIN

Designed for the TSA to hold lost or left behind items, this unit provides storage for any size item.
